

Summary of CDT 2021 changes

CDT 2021 is the newest version of the American Dental Association's code on dental procedures and nomenclature. Federal HIPAA law requires that CDT codes be used in electronic health care transactions. When the ADA changes the codes, carriers must adopt the changes. Please use CDT 2021 codes when submitting claims to Delta Dental for services you perform on or after January 1, 2021.

The CDT updates for 2021 include 28 new codes, seven revised codes and four code deletions. The following is a summary of the changes; please note that coverage for new codes is dependent on the patient's particular benefit plan. The Delta Dental Dentist Handbook has been updated to reflect CDT 2021 and is available by logging in at deltadentalmo.com/providers.

Important Notes:

- CDT coding and nomenclature are the copyright of the American Dental Association and a trademark of the ADA; all rights reserved. There are important differences between Delta Dental's plan benefits and processing policies and the descriptors found in the CDT code.
- Fees for denied services are the responsibility of the patient.

New CDT Codes

D0604 – antigen testing for a public health related pathogen includes coronavirus

D0605 – antibody testing for a public health related pathogen includes coronavirus

D0701 – panoramic radiographic image – image capture only

D0702 – 2-D cephalometric radiographic image – image capture only

D0703 – 2-D oral/facial photographic image obtained intra-orally or extra-orally – image capture only

D0704 – 3-D photographic image – image capture only

D0705 – extra-oral posterior dental radiographic image – image capture only

D0706 – intraoral – occlusal radiographic image – image capture only

D0707 – intraoral – periapical radiographic image – image capture only
